

## > COPPERLEAF ESTATE

Upmarket sophistication and elegance

We started working with the owner of this stunning property from the building stages. This allowed us to work on a clean canvas and really bring the vision to life. We set out to create a charming, contemporary and stylish home for a single professional. Situated in the heart of the bustling city, we sought to give the owner a tranquil space that offered a perfect escape. Lending to the open style of the space, we ensured fluidity between each room through the use of subtle tones and incorporated bursts of brightness to add character.

The home is furnished with simple pieces that give interesting texture to the space. The contemporary kitchen design gives the owner space for self-expression and is fitted with the highest quality finishes. All in all, the home is inviting, relaxing and comfortable for a young individual, also allowing space to entertain.
