

> DAINFERN VALLEY

A home to behold

We all want our homes to be cozy, beautiful and inviting. That's just the bare minimum. The owners of this home though, wanted to create a breathtaking environment for their family, friends and guests. It was a mammoth task that commenced during the building phase, where we had to design a lavish abode. In this home we hand-picked each item, from the light fixtures to the tap faucets. Owing to the spacious nature, we were able to harmoniously incorporate different textures, colours and moods to each area. From the moment you walk in, you're greeted with a magnificent chandelier that traces the shape of the home. The use of asymmetric shapes makes every room visually appealing and unexpected. We chose earth tones for the colour scheme, to allow the surrounding features to shine. The dining and socializing spaces offer luxurious comfort and style, making this the perfect venue for a dinner party!
